St. Dominic Catholic School
8th Grade Summer Math Packet

Dear Incoming 8th Grade Families,

We are excited to have you for math! Please complete this summer math packet before coming back to school in August. You should be able to do everything in the packet - please ask for help if you need it! Math facts may need practice over the summer to be able to do them quickly and correctly when you come back. Please review your work as there will be a quiz the first week of school.

We've included some links to that might help you if you get stuck. You also might want to check out ixl.com which will let you try 20 questions per day. You do not need to buy the full version!

I hope you enjoy your summer break and look forward to seeing you in August!

Sincerely,

Mrs. Herbst
